SUMMARY

I am a Web developer with demonstrated understanding of JavaScript with expertise in gatsby.js and react.js as tools for creating responsive front end components.

I use these frame works to consume API and communicate with back end technology built on PHP.

As a curious Junior developer, I spend my spare time learning programming patterns and data structures.

I am constantly looking for opportunities to learn while and improve.

EXPERIENCE

Web Development Intern, Greg and Co ICT Hub

08/2020 – present
